Dear Mr. Fox

I apologize that you were unable to reach me on the phone however based on your most recent letter I will reply to you via mail so that you have a record of our correspondence.

I have taken the opportunity to review the material that you articulated in your initial letter and have found that that all CBSA staff acted in accordance with all applicable legislation, policies and procedures. Our officers have concluded that you are a citizen of Canada based on a valid Ontario birth certificate and Canadian passport which were issued to you. As we have concluded that you are a Canadian Citizen there is no further lawful investigative steps that we may take.

If you have evidence to prove that you are a citizen of another country I recommend you correspond with that country's Government to obtain any necessary documents. At this time the CBSA will not be taking any further action with regards to your request.

Yours truly,

Steffan Tzetzos
Manager
Intelligence Section CBSA
